

6TH INTERNATIONAL CONFERENCE ON
**VARIABLE
NEIGHBORHOOD
SEARCH**

**October 4-7
2018
Halkidiki, Greece**

VNS is a metaheuristic based on systematic changes in the neighborhood structure within a search, for solving optimization problems and related tasks. The main goal of the 6th IC on VNS is to provide a stimulating environment in which researchers coming from various scientific fields can share and discuss their knowledge, expertise and ideas related to the theoretical, methodological or applied aspects of the VNS metaheuristic method.
